

Why you should retain Michael J. Fuller as your attorney.

Michael J. Fuller, Attorney at Law, is the better choice for your legal matters. You will experience unrivaled legal representation and respect along with peace of mind when you need it most.

When you engage Mr. Fuller, you can expect:

An Honest Assessment of Your Case: At our first meeting, I will ask you to tell me your legal objectives. We will discuss your options, the likelihood of success and the estimated cost to achieve your goals. And, if I believe I cannot help you, I will tell you immediately to avoid any unnecessary legal fees.

Practical Solutions: There are always two answers to your legal question: what is a law professor going to tell you and what is an attorney with over 30 years of practical experience going to advise you to do. Real world consideration must be contemplated before you invest a lot of money on legal fees. For example, you may be able to secure a judgment against the other party, but the other party is not employed or otherwise does not have assets to satisfy your judgment.

A Winning Attitude: Winning is important to me. I am an avid tennis and hockey player and I hate to lose. The same competitive spirit will be at work on your case. I will exercise my knowledge, skills and experience to achieve the best possible outcome for you.

Fair Treatment: All clients are created equal. I have represented large insurance companies and financial institutions, small businesses and families. I treat all clients the same. All legal matters regardless of size and scope are important to me.

Absolute Attention to Your input. Its Critical: Your legal matter is about you and your life, and you know the facts of your case better than anyone. We are a team and must work closely together. You will be asked to review my letters and pleadings to insure the content is accurate. I will always welcome your suggestions. The quality and accuracy of your legal position is critical to your case.

A Passion for the Law: I love what I do and look forward to going to work every day to conquer new legal challenges. For me, it's all about helping people. I derive a great deal of satisfaction knowing that by solving your legal problem, I have had a positive impact on your life.

Complete Information: Your legal matter is important to both you and me. You are eager to bring finality to your legal issue as quickly as possible. As appropriate, you will be informed by phone, voicemail or email of any case developments as soon as they occur. You are also free to call me at any time.

Cost Consciousness: Understandably, you need to know how much it will cost to complete your project. I will try to achieve your objectives at the lowest possible cost to you. I will also quote you a flat fee if possible or at least give you an approximate estimate of your legal expenses at the inception of your case.

End-to-End Representation: A judgment is a declaration by a court that someone owes you money, but the result does not ensure that you will ever see a dime from the opposing party. Most attorneys do not have the experience needed to collect a judgment after it is secured, and many of my clients are attorneys who need assistance collecting a judgment.

A Solid Record of Client Satisfaction: I started my practice with no clients and have been fortunate to grow my practice on the simple philosophy that a satisfied client will tell other people about his or her experience with me.

I would be privileged to discuss your case! Call me at 602.241.8599
